EXPERIENCES

SIRCLO
Software Engineer Intern   Jul 2021 – Oct 2021
- Responsible to develop internal @sirclo/nexus—internal npm package for reusable component across templates—using Next.js, and Apollo Client
- Manage specific features of article, lookbook, navigation, profile, etc. at SIRCLO Store SaaS
- Documented 80% of nexus components using Storybook

AntiGrvty (PT Gravita Driatama Sentosa)
Frontend Developer Intern   Mar 2021 – May 2021
- Developed a total of 50 pages for Mandiri, Dji Sam Soe, Marlboro, Sampoerna Hijau, and Asuransi Tugu

Tutee.id
Software Engineer Intern   Nov 2020 – Mar 2021
- Developed Landing Page, Search Page, and Customer's Order List Page using React.js and Firebase tech stack
- Influenced the use of Block Element Modifier (BEM) to reduce class clashes
- Automated email system using google sheets and google form when condition meets

Product & UX Research Intern   Aug 2020 – Nov 2020
- Increased 50% of completed research for product deployment
- Coordinated 6 team members to conduct numerous research on pre-deployment and post-deployment
- Created a full user flow for a website and collaborating with UI Designers to make a high-fidelity design
- Deployed 3 products which are (see more)
  - BookTutor, a primary product that meets tutors and customers
  - AskTutor, a LINE Openchat that provides customer with trusted answers from Tutee.id's tutors
  - Tutee's CV Review, A service to review customer's CV by HR Professionals

SELECTED PROJECTS
- **ppdbsumsel.net** – Site to facilitate over 200 thousand students in South Sumatera to apply for National High School with clean design breaking the stereotype of government website design.
- **seasfor.us** – Site to find beach clean-up events in local coastal area to support #TeamSeas initiative. Built with Next.js, Tailwind CSS, Zustand, SWR Laravel, and Auth0.
- **love4heroes.online** – Platform to send messages to the medical frontline workers, built with Next.js, and Firebase. Responsible for connecting frontend with Firebase, use NoSQL to persist data and improve the User Experience.
